

# Time flies

By Adrian Peniston-Bird

Flea is eleven and hates school. She also hates moving house so often, and she especially hates starting at new schools. Now she is off to yet another one, which she knows is going to be just like all the others.

But is it? How come there is a soldier in the bell tower, who is there one moment and gone the next? And why does she get the strange feeling she is being watched?

If you would like to purchase a copy please complete an order form.

**Cost: \$12each (inc. GST)**
